How Tobacco Smoke Causes Diseases 2010 This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.

Wishing for Wings Debbie Jacob 2013-10-01 They were outcasts, the forgotten boys of Trinidad and Tobago imprisoned for violent crimes including armed robbery and murder. They had nothing left but a wish for a better life, the feeling that they would need an education to achieve their goals, and a desperate desire to find an English teacher. In 2010 Debbie Jacob entered the gates of the Youth Training Centre (YTC), the remand centre for boys in the Caribbean island of Trinidad - it would be a move that would change her life and the lives of her young charges forever. Based on a true story, Wishing for Wings recounts Debbie's challenging journey of preparing seven young men for the Caribbean Examinations Council (CXC) English Language exam. Heartbreaking but also encouraging, Debbie's story and those of her students, offer an unprecedented look into the lives of troubled teens and boys in prison. The realities of the education and justice systems are brought into sharp focus as are issues such as teaching (formal) English in a Creole speaking environment. It is a story of challenge and triumph; of rebellion and redemption; of loss and of learning, but most of all it is about the Power of Love. Debbie Jacob took a chance with her students and they took a chance with her. In the end, both teacher and students would discover just how much they had come to need each other. Impossible to put down, Wishing for Wings captures both the fear and the pleasure of one teacher in uncharted territory; and the hope and trust sustaining her students. The story of their journey together will make you cry and make you smile, but most of all, it will remind you of enduring power of faith and love.

Teaching Caribbean Poetry Beverley Bryan 2013-10-30 Teaching Caribbean Poetry will inform and inspire readers with a love for, and understanding of, the dynamic world of Caribbean poetry. This unique volume sets out to enable secondary English teachers and their students to engage with a wide range of poetry, past and present; to understand how histories of the Caribbean underpin the poetry and its interpretation; and to explore how Caribbean poetry connects with environmental issues. Written by literary experts with extensive classroom experience, this lively and accessible book is immersed in classroom practice, and examines: • popular aspects of Caribbean poetry, such as performance poetry; • different forms of Caribbean language; • the relationship between music and poetry; • new voices, as well as well-known and distinguished poets, including John Agard (winner of the Queen's Medal for Poetry, 2012), Kamau Brathwaite, Lorna Goodison, Olive Senior and Derek Walcott; • the crucial themes within Caribbean poetry such as inequality, injustice, racism, 'othering', hybridity, diaspora and migration; • the place of Caribbean poetry on the GCSE/CSEC and CAPE syllabi, covering appropriate themes, poetic forms and poets for exam purposes. Throughout this absorbing book, the authors aim to combat the widespread 'fear' of teaching poetry, enabling teachers to teach it with confidence and enthusiasm and helping students to experience the rewards of listening to, reading, interpreting, performing and writing Caribbean poetry.

Equitable Education for Marginalized Youth in Latin America and the Caribbean Stanley N. J. Blackman 2022-09-02 This edited volume examines the thrust towards equity in education for marginalized and out-of-school youth, as well as youth with disabilities, in countries located in the Global South. Using a critical cross-cultural lens to interrogate the historical, empirical, and theoretical discourses associated with achieving UNESCO's equity in education agenda, the book showcases the work of scholars from developed and developing nations in examining inclusive education. Drawing attention to the nature, impact, and effects of marginalization, the book ultimately demonstrates the ability of education systems in the Global South to be innovative and agile despite current resource challenges. This text will benefit scholars, academics, and students in the fields of international and comparative education, education policy, and inclusion and special educational needs education more broadly. Those involved with Caribbean and Latin American studies, the sociology of education, and diaspora studies in general will also benefit from this volume.

Marketing the Arts Baragh O'Reilly 2010-04-27 In recent years, there have been significant shifts in arts marketing, both as a practice and an academic discipline. The relationship between art and the market is increasingly complex and dynamic, requiring a transformation in the way the arts are marketed. Marketing the Arts argues that arts marketing is not about the simple application of mainstream managerial marketing to the arts. With contributions from international scholars of marketing and consumer studies, this book engages directly with a range of contemporary themes, including: The importance of arts consumption and its social dimensions The importance of the aesthetic experience itself, and how to research it Arts policy development The art versus commerce debate The role of the arts marketer as market-maker The artist as brand or entrepreneur This exciting new book covers topics as diverse as Damien Hirst's 'For the Love of God', Liverpool's brand makeover, Manga scanlation, Gob Squad, Surrealism, Bluegrass music, Miles Davis and Andy Warhol, and is sure to enthuse students and enlighten practitioners.

Popular Music Colin Cripps 1988-04-28 The Cambridge Assignments in Music series features a variety of books, audio cassettes and CDs including History of Music, Popular Music, Performing and Responding and Popular Music. Pan-Africanism, and the Politics of African Citizenship and Identity Jedyty Falola 2013-10-08 There is no recent literature that underscores the transition from Pan-Africanism to Diaspora discourse. This book examines the gradual shift and four major transformations in the study of Pan-Africanism. It offers an "academic post-mortem" that seeks to gauge the extent to which Pan-Africanism overlaps with the study of the African Diaspora and reverse migrations; how Diaspora studies has penetrated various disciplines while Pan-Africanism is located on the periphery of the field. The book argues that the gradual shift from Pan-African discourses has created a new pathway for engaging Pan-African ideology from academic and social perspectives. Also, the book raises questions about the recent political waves that have swept across North Africa and their implications to the study of twenty-first century Pan-African solidarity on the African continent. The ways in which African institutions are attracting and mobilizing returnees and Pan-Africanists with incentives as dual-citizenship for diasporans to support reforms in Africa offer a new alternative approach for exploring Pan-African ideology in the twenty-first century. Returnees are also using these incentives to gain economic and cultural advantage. The book will appeal to policy makers, government institutions, research libraries, undergraduate and graduate students, and scholars from many different disciplines.

Demonic Possession and Lived Religion in Later Medieval Europe Sari Katajala-Peltomaa 2020-02-19 Demonic possession was a spiritual state that often had physical symptoms; however, in Demonic Possession and Lived Religion in Later Medieval Europe, Sari Katajala-Peltomaa argues that demonic possession was a social phenomenon which should be understood with regard to the community and culture. She focuses on significant case studies from canonization processes (c. 1240-1450) which show how each set of sources formed its own specific context, in which demonic presence derived from different motivations, reasonings, and methods of categorization. The chosen perspective is that of lived religion, which is both a thematic approach and a methodology: a focus on rituals, symbols, and gestures, as well as sensitivity to nuances and careful contextualizing of the cases are constitutive elements of the argumentation. The analysis contests the

hierarchy between the 'learned' and the 'popular' within religion, as well as the existence of a strict polarity between individual and collective religious participation. Demonic presence disclosed negotiations over authority and agency; it shows how the personal affected the communal and vice versa, and how they were eventually transformed into discourses and institutions of the Church; that is, definitions of the miraculous and the diabolical. Geographically, the volume covers Western Europe, comparing Northern and Southern material and customs. The structure follows the logic of the phenomenon, beginning with the background reasons offered as a cause of demonic possession, continuing with communities' responses and emotions, including construction of sacred caregiving methods. Finally, the ways in which demonic presence contributed to wider societal debates in the fields of politics and spirituality are discussed. Alterity and inversion of identity, gender, and various forms of corporeality and the interplay between the sacred and diabolical are themes that run all through the volume.

Children in the Global Sex Trade Julia O'Connell Davidson 2005-01 This compelling new book explores the complexities of the global child sex industry, but without falling into cliché and melodrama. Julia O'Connell Davidson draws attention to the multitude of ways in which children become implicated in the sex trade, and the devastating global political and economic inequalities that underpin their involvement. She sensitively unpicks the relationship between different aspects of the sexual exploitation of children, including trafficking, prostitution and pornography, at the same time challenging popular conceptions of childhood and sexuality. This thought-provoking book will be of interest to general readers, and to students taking a range of courses, such as gender studies and childhood studies, and courses on sexuality and globalisation.

Data and Goliath: The Hidden Battles to Collect Your Data and Control Your World Bruce Schneier 2015-03-02 "Bruce Schneier's amazing book is the best overview of privacy and security ever written."—Clay Shirky "Bruce Schneier's amazing book is the best overview of privacy and security ever written."—Clay Shirky Your cell phone provider tracks your location and knows who's with you. Your online and in-store purchasing patterns are recorded, and reveal if you're unemployed, sick, or pregnant. Your e-mails and texts expose your intimate and casual friends. Google knows what you're thinking because it saves your private searches. Facebook can determine your sexual orientation without you ever mentioning it. The powers that surveil us do more than simply store this information. Corporations use surveillance to manipulate not only the news articles and advertisements we each see, but also the prices we're offered. Governments use surveillance to discriminate, censor, chill free speech, and put people in danger worldwide. And both sides share this information with each other or, even worse, lose it to cybercriminals in huge data breaches. Much of this is voluntary: we cooperate with corporate surveillance because it promises us convenience, and we submit to government surveillance because it promises us protection. The result is a mass surveillance society of our own making. But have we given up more than we've gained? In *Data and Goliath*, security expert Bruce Schneier offers another path, one that values both security and privacy. He brings his bestseller up-to-date with a new preface covering the latest developments, and then shows us exactly what we can do to reform government surveillance programs, shake up surveillance-based business models, and protect our individual privacy. You'll never look at your phone, your computer, your credit cards, or even your car in the same way again.
