Logic Programming Marcus J. Lambert 2014 Prolog for logic programming is one of the most intensively studied software languages in the 1980s. During the same period, the data-flow model for parallel computation attracted a lot of attention of researchers in the computer science; hence, it was very natural that several approaches were tried toward combining the two and implementing logic programs in parallel machines with the data-flow architecture. These approaches, however, were rather indirect ones in the sense that they developed programs describing AND/OR-parallelism for deduction using a data-flow language and executed them in a data-flow computer, and yet did not devise a direct model for parallel execution (reasoning) of a logic program. This book discusses fuzzy logic inferencing for Prolog; dislog; SEProlog; and provides direct graphical representations of first-order logic for inference.

The Distance Between Lost and Found Kathryn Holmes 2015-02-17 Blending elements of Laurie Halse Anderson's *Speak* and Gary Paulsen's *Hatchet*, this gripping story from Kathryn Holmes was deemed "a page turner" by author Richard Peck and "an intense story of survival" by ALA Booklist in its starred review. Sophomore Hallie Calhoun has just endured the most excruciating six months of her life. Once the rumors about her and the preacher's son, Luke, made their way around school, her friends abandoned her, and as a result, Hallie has completely withdrawn. Now on a hiking trip in the Smoky Mountains with the same people who have relentlessly taunted her, Hallie is pushed to her limit. Then Hallie, outgoing newcomer Rachel, and Jonah—Hallie's former friend—get separated from the rest of the group. As days go by without rescue, their struggle for survival turns deadly. Stranded in the wilderness, the three have no choice but to trust one another in order to stay alive...and for Hallie, that means opening up about what really happened that night with Luke. From the catty atmosphere of high school to the unpredictable terrain of the mountains, this novel is a poignant, raw journey about finding yourself after having been lost for so long.

Modernity and Self-Identity Anthony Giddens 2013-04-30 This major study develops a new account of modernity and its relation to the self. Building upon the ideas set out in *The Consequences of Modernity*, Giddens argues that 'high' or 'late' modernity is a post traditional order characterised by a developed institutional reflexivity. In the current period, the globalising tendencies of modern institutions are accompanied by a transformation of day-to-day social life having profound implications for personal activities. The self becomes a 'reflexive project', sustained through a revisable narrative of self identity. The reflexive project of the self, the author seeks to show, is a form of control or mastery which parallels the overall orientation of modern institutions towards 'colonising the future'. Yet it also helps promote tendencies which place that orientation radically in question - and which provide the substance of a new political agenda for late modernity. In this book Giddens concerns himself with themes he has often been accused of unduly neglecting, including especially the psychology of self and self-identity. The volumes are a decisive step in the development of his thinking, and will be essential reading for students and professionals in the areas of social and political theory, sociology, human geography and social psychology.

Stereochemistry of Organic Compounds D. Nasipuri 1991 This text deals with the new concepts and terminology that have been introduced into the treatment of organic stereochemistry over the last decade. Organic reaction mechanisms, as they relate to stereochemistry, are included, and the pericyclic reaction using

the frontier molecular orbital approach is explained. The text does not assume a strong grounding in organic chemistry and will therefore be useful to a broader spectrum of students - both graduate and undergraduate. The volume features numerous illustrations and programmed problems.

Probably because she used to be one. Environmental issues, civil rights, education—you name it, she's probably been involved in a protest. When her latest cause lands her in jail for a few hours, she meets Silas Moore. He's in for a different kind of fighting. And though he's arrogant and not at all her type, she can't help being fascinated with him. Yet another lost cause. Football and trouble are the only things that have ever come naturally to Silas. And it's trouble that lands him in a cell next to do-gooder Dylan. He's met girls like her before—fixers, he calls them, desperate to heal the damage and make him into their ideal boyfriend. But he doesn't think he's broken, and he definitely doesn't need a girlfriend trying to change him. Until, that is, his anger issues and rash decisions threaten the only thing he really cares about, his spot on the Rusk University football team. Dylan might just be the perfect girl to help. Because Silas Moore needs some fixing after all.

Talking to the Dead Harry Bingham 2012-09-25 A mesmerizing and thrilling novel—perfect for fans of Tana French and Stieg Larsson—that introduces a modern, unforgettable rookie cop whose past is as fascinating and as deadly as the crimes she investigates. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Boston Globe • The Seattle Times SHE KNOWS WHAT IT'S LIKE. . . . At first, the murder scene appears sad, but not unusual: a young woman undone by drugs and prostitution, her six-year-old daughter dead alongside her. But then detectives find a strange piece of evidence in the squalid house: the platinum credit card of a very wealthy—and long dead—steel tycoon. What is a heroin-addicted hooker doing with the credit card of a well-known and powerful man who died months ago? This is the question that the most junior member of the investigative team, Detective Constable Fiona Griffiths, is assigned to answer. But D.C. Griffiths is no ordinary cop. She's earned a reputation at police headquarters in Cardiff, Wales, for being odd, for not picking up on social cues, for being a little overintense. And there's that gap in her past, the two-year hiatus that everyone assumes was a breakdown. But Fiona is a crack investigator, quick and intuitive. She is immediately drawn to the crime scene, and to the tragic face of the six-year-old girl, who she is certain has something to tell her . . . something that will break the case wide open. Ignoring orders and protocol, Fiona begins to explore far beyond the rich man's credit card and into the secrets of her seaside city. And when she uncovers another dead prostitute, Fiona knows that she's only begun to scratch the surface of a dark world of crime and murder. But the deeper she digs, the more danger she risks—not just from criminals and killers but from her own past . . . and the abyss that threatens to pull her back at any time. BONUS: This edition includes an excerpt from Harry Bingham's *Love Story*, with *Murders*. Praise for *Talking to the Dead* "Gritty, compelling . . . a procedural unlike any other you are likely to read this year."—USA Today "With Detective Constable Fiona 'Fi' Griffiths, Harry Bingham . . . finds a sweet spot in crime fiction . . . think Stieg Larsson's *Lisbeth Salander* . . . Letters to Poseidon Cees Nooteboom 2016-01-05 It is said that during his abortive campaign to invade Britannia, the infamous Roman emperor Caligula ordered his legions into the surf to attack Poseidon and claim seashells as trophies of war. Cees Nooteboom is considerably more thoughtful in his relationship with the god of the sea. As autumn falls each year, Nooteboom writes Poseidon a letter requesting permission to return to his home in Minorca the following spring. Of course, it would be the height of discourtesy if Nooteboom's letters were no more than a series of demands. So Cees takes the opportunity to seek the wisdom of the trident-wielding deity, and to offer the god updates about his own life and thoughts. At once playful and poignant, beautiful and at times slightly bizarre, this masterful exploration of humankind's relationship with the sea uses the minutiae of everyday life to illuminate the broadest questions of human existence, all couched in the lapidary prose of one of Europe's outstanding stylists.

I superconsigli per una tesi di laurea da 100 e lode Rachel Polito 2013

Art as experience Josef Albers 2013 Josef Albers (1888-1976) was both a pioneer of abstract art and an enormously influential teacher and theorist of art

pedagogy. In the work he made at the Bauhaus and--following his emigration from Germany to the U.S.--at Black Mountain College and Yale University, Albers strived for economy of line and clarity of articulation, and he developed his pedagogy along similarly rigorous lines. At Black Mountain College, Albers encountered the educational theories of the great American philosopher John Dewey, who emphasized the importance of context and experience in education, and whose famous statement on aesthetics, "Art as Experience," was published the year after Albers arrived in the U.S. In 1963, Albers published the profoundly influential book "Interaction of Color." Subsequently translated into 12 languages, it continues to be used in classrooms and studios worldwide. "Josef Albers: Art as Experience" looks at the relationship between Albers' pragmatic (and Pragmatist) teaching and his art, presenting previously unseen works by Albers' students from the Bauhaus and elsewhere, along with little-known studies and other art by Albers himself, and reveals the vibrancy and extraordinary impact of Josef Albers' groundbreaking pedagogical methods.
