Formalism and Marxism Tony Bennett 2004-03-01 Russian Formalism and Marxist criticism had a seismic impact on twentieth-century literary theory and the shockwaves are still felt today. First published in 1979, Tony Bennett's *Formalism and Marxism* created its own reverberations by offering a ground-breaking new interpretation of the Formalists' achievements and demanding a new way forward in Marxist criticism. The author first introduces and reviews the work of the Russian Formalists, a group of theorists who made an extraordinarily vital contribution to literary criticism in the decade following the October Revolution of 1917. Placing the work of key figures in context and addressing such issues as aesthetics, linguistics and the category of literature, literary form and function and literary evolution, Bennett argues that the Formalists' concerns provided the basis for a radically historical approach to the study of literature. Bennett then turns to the situation of Marxist criticism and sketches the risks it has run in becoming overly entangled with the concerns of traditional aesthetics. He forcefully argues that through a serious and sympathetic reassessment of the Formalists and their historical approach, Marxist critics might find their way back on to the terrain of politics, where they and their work belong. Addressing such crucial questions as 'What is literature?' or 'How should it be studied and to what end?', *Formalism and Marxism* explores ideas which should be considered by any student or reader of literature and provides a particular challenge to those interested in Marxist criticism. Now with a new afterword, this classic text still offers the best available starting point for those new to the field, as well as representing a crucial intervention in twentieth-century literary theory.

Refuge: A Novel Dina Nayeri 2018-07-10 "Rich and colorful... [Refuge] has the kind of immediacy commonly associated with memoir, which lends it heft, intimacy, atmosphere." -New York Times The moving lifetime relationship between a father and a daughter, seen through the prism of global immigration and the contemporary refugee experience. An Iranian girl escapes to America as a child, but her father stays behind. Over twenty years, as she transforms from confused immigrant to overachieving Westerner to sophisticated European transplant, daughter and father know each other only from their visits: four crucial visits over two decades, each in a different international city. The longer they are apart, the more their lives diverge, but also the more each comes to need the other's wisdom and, ultimately, rescue. Meanwhile, refugees of all nationalities are flowing into Europe under troubling conditions. Wanting to help, but also looking for a lost sense of home, our grown-up transplant finds herself quickly entranced by a world that is at once everything she has missed and nothing that she has ever known. Will her immersion in the lives of these new refugees allow her the grace to save her father? *Refuge* charts the deeply moving lifetime relationship between a father and a daughter, seen through the prism of global immigration. Beautifully written, full of insight, charm, and humor, the novel subtly exposes the parts of ourselves that get left behind in the wake of diaspora and ultimately asks: Must home always be a physical place, or can we find it in another person?

Maldoror & the Complete Works of the Comte de Lautreamont comte de Lautréamont 1994 Andre Breton wrote that MALDOROR is "" the expression of a revelation so complete it seems to exceed human potential."" First published in 1869, MALDOROR is the work of a mysterious genius about whom little is known aside from his birth in Uruguay, 1846, and his early death in Paris, 1870. His writings, published under the pseudonym Comte de Lautreamont, bewildered his contemporaries but have since taken their place alongside other French classics of transgression such as Sade, Baudelaire, Rimbaud. A unique translation.

The Reluctant Fundamentalist Mohsin Hamid 2009-06-05 From the author of the award-winning *Moth Smoke* comes a perspective on love, prejudice, and the war on terror that has never been seen in North American literature. At a café table in Lahore, a bearded Pakistani man converses with a suspicious, and possibly armed, American stranger. As dusk deepens to night, he begins the tale that has brought them to this fateful meeting. . . . Changez is living an immigrant's dream of America. At the top of his class at Princeton, he is snapped up by Underwood Samson, an elite firm that specializes in the "valuation" of companies ripe for acquisition. He thrives on the energy of New York and the intensity of his work, and his infatuation with regal Erica promises entrée into Manhattan society at the same exalted level once occupied by his own family back in Lahore. For a time, it seems as though nothing will stand in the way of Changez's meteoric rise to personal and professional success. But in the wake of September 11, he finds his position in his adopted city suddenly overturned, and his budding relationship with Erica eclipsed by the reawakened ghosts of her past. And Changez's own identity is in seismic shift as well, unearthing allegiances more fundamental than money, power, and perhaps even love. Elegant and compelling, Mohsin Hamid's second novel is a devastating exploration of our divided and yet ultimately indivisible world. "Excuse me, sir, but may I be of assistance? Ah, I see I have alarmed you. Do not be frightened by my beard: I am a lover of America. I noticed that you were looking for something; more than looking, in fact you seemed to be on a mission, and since I am both a native of this city and a speaker of your language, I thought I might offer you my services as a bridge." —from *The Reluctant Fundamentalist*

Fifth Business Robertson Davies 2001-01-01 The first book in Robertson Davies's acclaimed *The Deptford Trilogy*, with a

new foreword by Kelly Link Ramsay is a man twice born, a man who has returned from the hell of the battle-grave at Passchendaele in World War I decorated with the Victoria Cross and destined to be caught in a no man's land where memory, history, and myth collide. As Ramsay tells his story, it begins to seem that from boyhood, he has exerted a perhaps mystical, perhaps pernicious, influence on those around him. His apparently innocent involvement in such innocuous events as the throwing of a snowball or the teaching of card tricks to a small boy in the end prove neither innocent nor innocuous. *Fifth Business* stands alone as a remarkable story told by a rational man who discovers that the marvelous is only another aspect of the real. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. The Dumbest Generation Mark Bauerlein 2008-05-15 This shocking, surprisingly entertaining romp into the intellectual nether regions of today's underthirty set reveals the disturbing and, ultimately, incontrovertible truth: cyberculture is turning us into a society of know-nothings. The Dumbest Generation is a dire report on the intellectual life of young adults and a timely warning of its impact on American democracy and culture. For decades, concern has been brewing about the dumbed-down popular culture available to young people and the impact it has on their futures. But at the dawn of the digital age, many thought they saw an answer: the internet, email, blogs, and interactive and hyper-realistic video games promised to yield a generation of sharper, more aware, and intellectually sophisticated children. The terms "information superhighway" and "knowledge economy" entered the lexicon, and we assumed that teens would use their knowledge and understanding of technology to set themselves apart as the vanguards of this new digital era. That was the promise. But the enlightenment didn't happen. The technology that was supposed to make young adults more aware, diversify their tastes, and improve their verbal skills has had the opposite effect. According to recent reports from the National Endowment for the Arts, most young people in the United States do not read literature, visit museums, or vote. They cannot explain basic scientific methods, recount basic American history, name their local political representatives, or locate Iraq or Israel on a map. The Dumbest Generation: How the Digital Age Stupefies Young Americans and Jeopardizes Our Future is a startling examination of the intellectual life of young adults and a timely warning of its impact on American culture and democracy. Over the last few decades, how we view adolescence itself has changed, growing from a pitstop on the road to adulthood to its own space in society, wholly separate from adult life. This change in adolescent culture has gone hand in hand with an insidious infantilization of our culture at large; as adolescents continue to disengage from the adult world, they have built their own, acquiring more spending money, steering classrooms and culture towards their own needs and interests, and now using the technology once promoted as the greatest hope for their futures to indulge in diversions, from MySpace to multiplayer video games, 24/7. Can a nation continue to enjoy political and economic predominance if its citizens refuse to grow up? Drawing upon exhaustive research, personal anecdotes, and historical and social analysis, The Dumbest Generation presents a portrait of the young American mind at this critical juncture, and lays out a compelling vision of how we might address its deficiencies. The Dumbest Generation pulls no punches as it reveals the true cost of the digital age—and our last chance to fix it.

"Intensely moving. . .Powerfully evocative of the plight in which displaced populations find themselves." - Kirkus, STARRED Review "Hosseini's story, aimed at readers of all ages, does not dwell on nightmarish fates; instead, its emotional power flows from the love of a father for his son." - Publishers Weekly, STARRED BOX Review A short, powerful, illustrated book written by beloved novelist Khaled Hosseini in response to the current refugee crisis, *Sea Prayer* is composed in the form of a letter, from a father to his son, on the eve of their journey. His debt has driven him to lie in wait by the old forest road, planning to rob the next traveler that crosses his path. But today, Kinch Na Shannack has picked the wrong mark. Galva is a knight, a survivor of the brutal goblin wars, and handmaiden of the goddess of death. She is searching for her queen, missing since a distant northern city fell to giants. The Candy Bombers Andrei Cherny 2008-04-17 "What an exciting, inspiring, and wonderfully-written book this is....Each page has lessons for today, and it is also a thrilling narrative to read."—Walter Isaacson, #1 New York Times Bestselling Author of *Steve Jobs* The masterfully told story of the unlikely men who came together to make the Berlin Airlift one of the great military and humanitarian successes of American history. On the sixtieth anniversary of the Berlin Airlift, Andrei Cherny

tells a remarkable story with profound implications for the world today. In the tradition of the best narrative storytellers, he brings together newly unclassified documents, unpublished letters and diaries, and fresh primary interviews to tell the story of the ill-assorted group of castoffs and second-stringers who not only saved millions of desperate people from a dire threat but changed how the world viewed the United States, and set in motion the chain of events that would ultimately lead to the dismantling of the Berlin Wall and to America's victory in the Cold War. On June 24, 1948, intent on furthering its domination of Europe, the Soviet Union cut off all access to West Berlin, prepared to starve the city into submission unless the Americans abandoned it. Soviet forces hugely outnumbered the Allies', and most of America's top officials considered the situation hopeless. But not all of them. Harry Truman, an accidental president, derided by his own party; Lucius Clay, a frustrated general, denied a combat command and relegated to the home front; Bill Tunner, a logistics expert downsized to a desk job in a corner of the Pentagon; James Forrestal, a secretary of defense beginning to mentally unravel; Hal Halvorsen, a lovesick pilot who had served far from the conflict, flying transport missions in the backwater of a global war—together these unlikely men improvised and stumbled their way into a uniquely American combination of military and moral force unprecedented in its time. This is the forgotten foundation tale of America in the modern world, the story of when Americans learned, for the first time, how to act at the summit of world power—a masterful and exciting work of historical narrative, and one with strong resonance for our time.

In Country Bobbie Ann Mason 2005-08-02 In the summer of 1984, the war in Vietnam came home to Sam Hughes, whose father was killed there before she was born. The soldier-boy in the picture never changed. In a way that made him dependable. But he seemed so innocent. "Astronauts have been to the moon," she blurted out to the picture. "You missed Watergate. I was in the second grade." She stared at the picture, squinting her eyes, as if she expected it to come to life. But Dwayne had died with his secrets. Emmett was walking around with his. Anyone who survived Vietnam seemed to regard it as something personal and embarrassing. Granddad had said they were embarrassed that they were still alive. "I guess you're not embarrassed," she said to the picture. This P.S. edition features an extra 16 pages of insights into the book, including author interviews, recommended reading, and more.

Reading Khaled Hosseini Rebecca Stuhr 2009 Making Culture, Changing Society proposes a challenging new account of the relations between culture and society focused on how particular forms of cultural knowledge and expertise work on, order and transform society. Examining these forms of culture's action on the social as aspects of a historically distinctive ensemble of cultural institutions, it considers the diverse ways in which culture has been produced and mobilised as a resource for governing populations. These concerns are illustrated in detailed case studies of how anthropological conceptions of the relations between race and culture have shaped e" and been shaped by e" the relationships between museums, fieldwork and governmental programmes in early twentieth-century France and Australia. These are complemented by a closely argued account of the relations between aesthetics and governance that, in contrast to conventional approaches, interprets the historical emergence of the autonomy of the aesthetic as vastly expanding the range of arte's social uses. In pursuing these concerns, particular attention is given to the role that the cultural disciplines have played in making up and distributing the freedoms through which modern forms of liberal government operate. An examination of the place that has been accorded habit as a route into the regulation of conduct within liberal social, cultural and political thought brings these questions into sharp focus. The book will be of interest to students and scholars of sociology, cultural studies, media studies, anthropology, museum and heritage studies, history, art history and cultural policy studies.

Reading as Therapy Timothy Aubry 2006-05-01 Why do Americans read contemporary fiction? This question seems simple, but is it? Do Americans read for the purpose of aesthetic appreciation? To satisfy their own insatiable intellectual curiosities? While other forms of media have come to monopolize consumers' leisure time, in the past two decades book clubs have proliferated, Amazon has sponsored thriving online discussions, Oprah Winfrey has inspired millions of viewers to read both contemporary works and classics, and novels have retained their devoted following within middlebrow communities. In *Reading as Therapy*, Timothy Aubry argues that contemporary fiction serves primarily as a therapeutic tool for lonely, dissatisfied middle-class American readers, one that validates their own private dysfunctions while supporting elusive communities of strangers unified by shared feelings. Aubry persuasively makes the case that contemporary literature's persistent appeal depends upon its capacity to perform a therapeutic function. Aubry traces the growth and proliferation of psychological concepts focused on the subjective interior within mainstream, middle-class society and the impact this has had on contemporary fiction. The prevailing tendency among academic critics has been to decry the personal emphasis of contemporary fiction as complicit with the rise of a narcissistic culture, the ascendancy of liberal individualism, and the breakdown of public life. *Reading as Therapy*, by contrast, underscores the varied ideological effects that therapeutic culture can foster. To uncover the many unpredictable ways in which contemporary literature answers the psychological needs of its readers, Aubry considers several different venues of reader-response—including Oprah's Book Club and Amazon customer reviews—the promotional strategies of publishing houses, and a variety of contemporary texts, ranging from Khaled Hosseini's *The Kite Runner* to Anita Shreve's *The Pilot's Wife* to David Foster Wallace's *Infinite Jest*. He concludes that, in the face of an atomistic social landscape, contemporary fiction gives readers a therapeutic vocabulary that both reinforces the private sphere and creates surprising forms of sympathy and solidarity among strangers.

Re-Orientalism and South Asian Identity Politics Lisa Lau 2012-05-23 Orientalism refers to the imitation of aspects of Eastern cultures in the West, and was devised in order to have authority over the Orient. The concept of Re-Orientalism maintains the divide between the Orient and the West. However, where Orientalism is based on how the West constructs the East, Re-Orientalism is grounded on how the cultural East comes to terms with an orientalised East. This book explores various new forms, objects and modes of circulation that sustain this renovated form of Orientalism in South Asian culture. The contributors identify and engage with recent debates about postcolonial South Asian identity politics, discussing a range of different texts and films such as *The White Tiger*, *Bride & Prejudice* and *Kama Sutra: A Tale of Love*. Providing new theoretical insights from the areas of literature, film studies and cultural and discourse analysis, this book is an stimulating read for students and scholars interested in South Asian culture, postcolonial studies and identity politics.

Each night they sleep together in their cot, their skulls touching, their limbs tangled. One day the siblings journey across the desert to Kabul with their father. Pari and Abdullah have no sense of the fate that awaits them there, for the event which unfolds will tear their lives apart; sometimes a finger must be cut to save the hand. Crossing generations and continents, moving from Kabul, to Paris, to San Francisco, to the Greek island of Tinos, Khaled Hosseini writes about the bonds that define us and shape our lives, and how the choices we make resonate through history.

Culture, Diaspora, and Modernity in Muslim Writing Rehana Ahmed 2012 Fiction by writers of Muslim background forms one of the most diverse, vibrant and high-profile corpora of work being produced today - from the trail-blazing writing of Salman Rushdie and Hanif Kureishi, which challenged political and racial orthodoxies in the 1980s, to that of a new generation including Mohsin Hamid, Nadeem Aslam and Kamila Shamsie. This collection reflects the variety of those fictions. Experts in English, South Asian, and postcolonial literatures address the nature of Muslim identity: its response to political realignments since the 1980s, its tensions between religious and secular models of citizenship, and its manifestation of these tensions as conflict between generations. In considering the perceptions of Muslims, contributors also explore the roles of immigration, class, gender, and national identity, as well as the impact of 9/11. This volume includes essays on contemporary fiction by

writers of Muslim origin and non-Muslims writing about Muslims. It aims to push beyond the habitual populist 'framing' of Muslims as strangers or interlopers whose ways and beliefs are at odds with those of modernity, exposing the hide-bound, conservative assumptions that underpin such perspectives. While returning to themes that are of particular significance to diasporic Muslim cultures, such as secularism, modernity, multiculturalism and citizenship, the essays reveal that 'Muslim writing' grapples with the same big questions as serve to exercise all writers and intellectuals at the present time: How does one reconcile the impulses of the individual with the requirements of community? How can one 'belong' in the modern world? What is the role of art in making sense of chaotic contemporary experience?

Shades of Right Robyn Braemer 1915-09-19 Shades of Right is a heart wrenching story of two men moving through their lives until one day their lives are dramatically entwined during the War Between the States. Isaac is a slave, raised by a man who treats him like a favored son yet refuses to grant him his freedom, believing it to be in Isaac's best interests to remain his slave. When Isaac's almost a father owner dies Isaac is inherited by a new owner, a man who has no recognition of Isaac's humanity but a desire for Isaac's unique talents. Isaac's new owner believes slaves are property, merely livestock with a monetary value. When President Lincoln announces the Declaration of Emancipation for slaves in Rebel states, Isaac's owner decides to sell his slaves before the president can free all the slaves and he loses money, including Isaac's family. Hank Hansohn, the son of German immigrants to Minnesota Territory, grows up in the lush green lands neighboring the lands set aside as agency land for the Lakota Indians when they are pushed out of their native lands to make room for the onslaught of white settlers moving into the area. Hank's closest childhood friend is Walking Moon, a Lakota youth living on the reservation just west of New Ulm, until he harsh conditions the Lakota are forced to bear under the government's care drive them to rise up and start the other American Civil War. Based on a true event that took place in Missouri in 1862, Shades of Right is the story of what it takes to bring together a slave brave enough to approach a complete stranger for help when just asking risks his life and the man in the 9th Minnesota Regiment who responds to a slave's request for help with actions knowing that the result is to be court martialled.
