Transforming the Workforce for Children Birth Through Age 8 National Research Council 2015-07-23 Children are already learning at birth, and they develop and learn at a rapid pace in their early years. This provides a critical foundation for lifelong progress, and the adults who provide for the care and the education of young children bear a great responsibility for their health, development, and learning. Despite the fact that they share the same objective - to nurture young children and secure their future success - the various practitioners who contribute to the care and the education of children from birth through age 8 are not acknowledged as a workforce unified by the common knowledge and competencies needed to do their jobs well. Transforming the Workforce for Children Birth Through Age 8 explores the science of child development, particularly looking at implications for the professionals who work with children. This report examines the current capacities and practices of the workforce, the settings in which they work, the policies and infrastructure that set qualifications and provide professional learning, and the government agencies and other funders who support and oversee these systems. This book then makes recommendations to improve the quality of professional practice and the practice environment for care and education professionals. These detailed recommendations create a blueprint for action that builds on a unifying foundation of child development and early learning, shared knowledge and competencies for care and education professionals, and principles for effective professional learning. Young children thrive and learn best when they have secure, positive relationships with adults who are knowledgeable about how to support their development and learning and are responsive to their individual progress. Transforming the Workforce for Children Birth Through Age 8 offers guidance on system changes to improve the quality of professional practice, specific actions to improve professional learning systems and workforce development, and research to continue to build the knowledge base in ways that will directly advance and inform future actions. The recommendations of this book provide an opportunity to improve the quality of the care and the education that children receive, and ultimately improve outcomes for children.

Fasting for Ramadan Kazim Ali 2011 Literary Nonfiction. Middle Eastern Studies. Memoir. FASTING FOR RAMADAN is structured as a chronicle of daily meditations, during two cycles of the 30-day rite of daytime abstinence required by Ramadan for purification and prayer. Estranged in certain ways from his family's cultural traditions when he was younger, Ali has in recent years re-embraced the Ramadan ritual, and brings to this rediscovery an extraordinary delicacy of reflection, a powerfully inquiring mind, and the linguistic precision and ardor of a superb poet. Kazim Ali's searching descriptions of the Ramadan sensibility and its arduous but liberating annual rite of communal fasting is sure to be a revelation to many readers--intellectually illuminating and aesthetically exhilarating. "[A]n important book.... Written 'in that third voice, a voice between two people, neither one nor the other, neither embodied nor disembodied.' I have wanted to know what fasting in Islam involved...to admire its intentions and effects in solitude.... I hope that multitudes will find their way to [this book]"--Fanny Howe.

The Warrior Diet Ori Hofmekler 2009-03-03 Along with the many benefits of leisure-class living comes obesity and its attendant ailments. In The Warrior Diet, Ori Hofmekler looks not forward but backward for a solution—to the primal habits of early cultures such as nomads and hunter-gatherers, the Greeks, and the Romans. Based on survival science, this book proposes not ordinary dietary changes but rather a radical yet surprisingly simple lifestyle overhaul. Drawing on both scientific studies and historical data, Hofmekler argues that robust health and a lean, strong body can best be achieved by mimicking the classical warrior mode of cycling—working and eating sparingly (undereating) during the day and filling up at night. Specific elements from the Warrior Diet Nutritional Program (finding ideal fuel foods and food combinations to reduce body fat) to the Controlled Fatigue Training Program (promoting strength, speed, and resilience to fatigue through special drills), literally reshape body and mind. Individual chapters cover warrior meals and recipes; sex drive, potency, and animal magnetism; as well as personalizing the diet for women. Featuring forewords by Fit for Life author Harvey Diamond and Fat That Kills author Dr. Udo Erasmus, The Warrior Diet shows readers weary of fat diets how to attain enduring vigor, explosive strength, a better appearance, and increased vitality and health.

The White Nights of Ramadan Maha Addasi 2017-05-09 Mid-Ramadan is a special time for families in the Arabian (Persian) Gulf. These middle days are known as "the three whites," because they include the day of the full moon, the day before, and the day after. It's a time when children dress in traditional clothing and go from house to house collecting treats from their neighbors. When Noor sees the full moon rising, signaling the coming of Girgian, she and her brothers prepare for the fun. Together, they decorate the bags they'll carry to collect the candies. But along with the fun, Noor remembers the true meaning of Ramadan: spending time with family and sharing with those less fortunate.

Effects of Ramadan Fasting on Health and Athletic Performance Hamdi Chtourou 2015-07-12 Ramadan fasting is a religious obligation followed annually by Muslims. This practice consists of a total abstinence from some behaviors such as eating, drinking and smoking during the span between dawn and sunset. Studies dealing with the effects of Ramadan were focused on several topics. Most published studies have examined either medical aspects related to fasting during Ramadan or the pattern of features related to sport performance during Ramadan. In this book, the chapters discuss several topics related to the effect of Ramadan on sport performance, training-induced adaptations, Muslims' psychology, sleep, sports nutrition, health and some patients with chronic diseases.

Under the Ramadan Moon Sylvia Whitman 2011-03-01 "We wait for the moon. We watch for the moon. We watch for the Ramadan moon. We give to the poor, and read Qur'an, under the moon. We live our faith, until next year under the moon, under the moon, under the Ramadan moon." Ramadan is one of the most special months of the Islamic year, when Muslims pray, fast, and help those in need. The lyrical story, with luminous illustrations, serves as an introduction to Ramadan—a time for reflection and ritual with family and friends. A detailed note about Ramadan is included.
